# MS SERIE MODULAR

## 10-90kVA (380V/400V/415V)

The rack modular, scalable, hot-swappable, online double conversion UPS ranging from 10 to 90kVA, with its flexible configuration of 3/3, 3/1 and 1/1, compact structure, is the ideal choice for small and medium data center.

### Features

#### Rack modular design

Modular design, compatible with 19" standard rack cabinet, convenient to be integrated with servers

#### High power density

10/15kVA power module in 2U height, saving great amount of space, easy for capacity expansion

#### Integrated solution for data center

UPS can be integrated with battery cabinet, PDU and external maintenance bypass, offering excellent choice for data center

#### Intelligent charging management

The system intelligently control the whole process of the charging and discharging, effectively improving the life time of the battery

#### Flexible configuration

The system can be configured to 3/3, 3/1 and 1/1 without derating

#### Friendly interface

7" touch color LCD with graphic display, more information displayed and easier for customer to operate

#### Smart sleep function

System can intelligently shutdown some power modules to increase total load rate, achieving higher efficiency

#### Self-aging mode

Energy internal circle technology, system can run with full load ,saving more than 90% energy

Efficiency 96%
